beyond providing space for data science activities academic libraries are often overlooked in the data science landscape that is emerging at academic research institutions although some academic libraries are collaborating in specific ways in a small subset of institutions there is much untapped potential for developing partnerships as library and information science roles continue to evolve to be more data centric and interdisciplinary and as research using a variety of data types continues to proliferate it is imperative to further explore the dynamics between libraries and the data science ecosystems in which they are a part the handbook of research on academic libraries as partners in data science ecosystems provides a global perspective on current and future trends concerning the integration of data science in libraries it provides both a foundational base of knowledge around data science and explores numerous ways academicians can reskill their staff engage in the research enterprise contribute to curriculum development and help build a stronger ecosystem where libraries are part of data science covering topics such as data

science initiatives digital humanities and student engagement this book is an indispensable resource for librarians information professionals academic institutions researchers academic libraries and academicians

this volume encourages reflection on previous volumes family involvement has been an issue in early education going back to pestalozzi almost two centuries ago this book looks at what advances in the area of family involvement in early education have been made since the publication of the previous volume

andragogy in practice is a timely book of case studies which offers readers the opportunity to see andragogy in practice solving real world challenges in a variety of adult learning contexts it highlights the wonderful range of innovative practices that characterize adult learning today holton robinson and caraccioli authors of the bestselling the adult learner bring a variety of diverse and inspiring extended cases together from a range of experienced teaching and learning specialists showing the broad scope power and potential of adult learning using andragogy case topics include artificial intelligence online learning in higher education human resource and leadership development curriculum and faculty development and art based learning the book can be used in conjunction with the adult learner or as a standalone text and provides a wealth of resources for educators students and practitioners looking to further their understanding of how andragogy is being applied in new and innovative ways experienced adult educators will be challenged to be more innovative in their own practices for reflection and further dialog each case includes a set of discussion questions to enhance engagement and understanding students and practitioners of human resource development and adult education will enjoy the engaging innovative and insightful cases in this book addressing andragogical practices in the contemporary society

this handbook addresses the multifaceted roles of stem faculty focusing on professional development to support their teaching research and leadership responsibilities it explores faculty development planning techniques and outcomes highlighting barriers effective models and the impact on higher education practices

research demonstrates that stem disciplines perpetuate a history of exclusion particularly for students with marginalized identities this poses problems particularly when science permeates every aspect of contemporary american life institutions repeated failures to disrupt systemic oppression in stem has led to a mostly white cisgender and male scientific workforce replete with implicit and or explicit biases education holds one pathway to disrupt systemic linkages of stem oppression from society to the classroom maintaining views on science as inherently objective isolates it from the world in which it is performed stem education must move beyond the transactional approaches to transformative environments manifesting respect for students social and educational capital we must create a stem environment in which students with marginalized identities feel respected listened to and valued we must assist students in understanding how their positionality privilege and power both historically and currently impacts their meaning making and understanding of stem

what if we reimagined ageing illness and disability not as barriers to sexuality but as starting points for new forms of desire intimacy and pleasure this groundbreaking book challenges the silence and stigma surrounding the sexuality of older ill and disabled people drawing from sociology health studies cultural theory and lived experience the authors explore diverse expressions of sexuality that defy long established views from queer ageing to sex work and legal rights this collection offers

bold inclusive perspectives and policy ideas that centre pleasure agency and dignity a vital resource for academics practitioners and anyone invested in social inclusion and justice
